首先，我们在网页上搜索 GitHub，找到官网点击进去。当我们进入官网时，你会发现全都是英文。不要害怕，这些英语都很简单。现在我们开始注册 GitHub 账号了。

我们点击右上角的 sign up（注册的意思），然后会跳到注册页面。第一步是填写注册的名字（name），第二行是填注册的邮箱（email），第三步是填写密码（password），填写完后点击 create account。然后会跳转到第二个步骤。

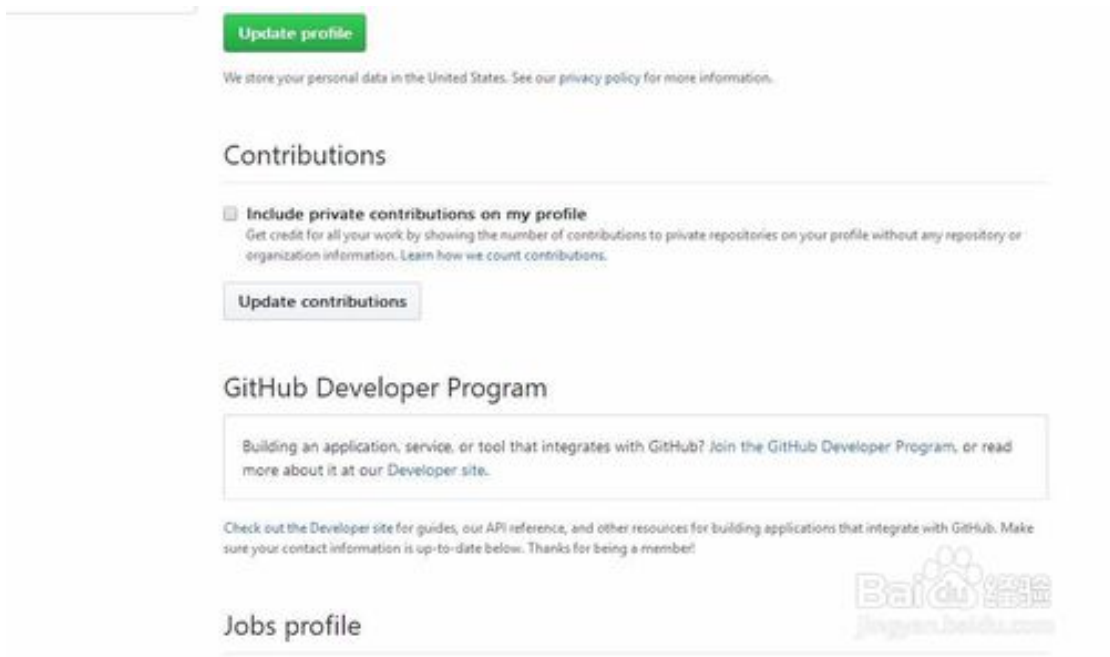

The screenshot shows the GitHub registration page. At the top, it says 'Join GitHub' and 'The best way to design, build, and ship software.' Below this are three steps: Step 1 (Create personal account), Step 2 (Choose your plan), and Step 3 (Tailor your experience). Step 1 is the active step. The main section is 'Create your personal account' with fields for Username, Email address, and Password. There are also checkboxes for 'Help me set up an organization next' and 'Send me updates on GitHub news, offers, and events'. A green 'Create an account' button is at the bottom. On the right, a box titled 'You'll love GitHub' lists benefits like 'Unlimited collaborators', 'Unlimited public repositories', 'Great communication', 'Frictionless development', and 'Open source community'.

step 2 是选择计划 (choose your plan) ，这里有两种选择，一是创建公开仓库 (repository) ，而是创建个人仓库 (private) ，但创建个人需要费用，因此，我们选择第一种。这里我们还可以创建 (Organizations) 。选好后，点击 continue。到此，我们就创建完了。

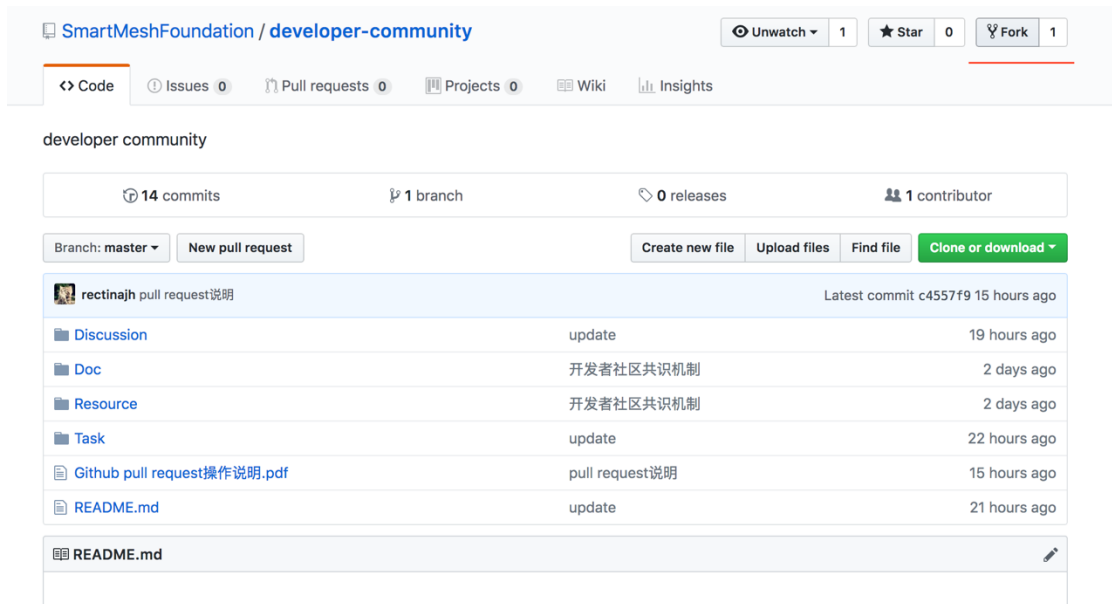

The screenshot shows the 'Welcome to GitHub' page. It says 'You've taken your first step into a larger world, @jiujiangxueyuan.' Below this are three steps: Step 1 (Completed), Step 2 (Choose your plan), and Step 3 (Tailor your experience). Step 2 is the active step. The main section is 'Choose your personal plan' with two options: 'Unlimited public repositories for free' and 'Unlimited private repositories for \$7/month. (view in CNY)'. There is a note 'Don't worry, you can cancel or upgrade at any time.' Below the options are checkboxes for 'Help me set up an organization next' and 'Send me updates on GitHub news, offers, and events'. A green 'Continue' button is at the bottom. On the right, a box titled 'Both plans include:' lists benefits like 'Collaborative code review', 'Issue tracking', 'Open source community', 'Unlimited public repositories', and 'Join any organization'.
